Ethiopia and the Airport and MRO Industry

The Ethiopian airport industry is considered as one of the world's fast growing in the sector. Addis Ababa is home to the country's largest international airport, Bole International Airport which has expanded from handling less than one million passengers per year, to over 6.5 million in a mere decade*. The airport sees both cargo and passenger flights, with over 350.000 tons of cargo coming through the airport each year and is home to the country's largest operators Ethiopian Airlines and EAE, Ethiopian Airports Enterprise.

Not only this, Ethiopian MRO Services, established in 1957 and based at Bole International Airport in Addis Ababa, is a division of Ethiopian Airlines which provides MRO services for aircraft, engines and components. Over 2,500 employees work for Ethiopian MRO both at the base and line maintenance. The division aims to be the leading MRO service provider in Africa.

The Ethiopian government has recognized the importance of the airport and in particular the aviation & MRO industry, will make to the country. Subsequently, certain policy initiatives have been put in place to encourage foreign investment, such as zero cargo limits for foreign investors. Notwithstanding, the EAE, is tirelessly working to construct, expand and upgrade airports and other related infrastructures so as to provide quality services, with the long term aim to be the leading airport service provider in Africa by 2025.*

Ethiopia's strong geographic positioning with its proximity to the Middle East, abundant skilled labor force and recent forecasts for infrastructure development is why BCI considers Addis Ababa as the ideal setting for the first edition of AIMA Africa.

What is Airport Infrastructures & MRO Aviation Meetings Africa?

AIMA Africa is an **outstanding supply chain orientated business summit for international contract manufacturers** to meet through pre-planned business-to-business meetings to discuss partnership and commerce opportunities.

AIMA Africa will assemble **OEMs and Tier 1 suppliers** to meet contract manufacturers who offer specialized expertise and services.

Unlike other traditional trade fairs AIMA Africa is a **genuine BtoB platform** which offers:

-  - An international **supply chain** orientated exhibition and business summit.
-  - International contract manufacturers to meet through pre-planned **one-to-one meetings** to discuss potential future partnership and commercial opportunities.
-  - High Level **conferences and workshops** put together to tackle the biggest and most pressing topics facing MRO and airport infrastructures today.
-  - **Industrial Visits to local companies** and industrial sites giving you the opportunity to see how business operates at a local level.

How do the one-to-one meetings work?

1 Fill out a short form and provide us with your capabilities, applications and needs.

2 Access detailed profiles of all the attendees from our online catalogue (3 weeks prior to the forum).

3 Identify and request meetings with relevant contacts through our user friendly program.

4 Validate meeting requests made by other companies.

5 Consult your individual schedule of pre-planned meetings with the contacts of your choice.

- R&D etc.

Expected key figures

250
companies

25
countries

400
participants

Program - September 22-24, 2015

One-to-One Meetings

Prior to the event and based on the participants own selection, BCI Aerospace pre-arranges meetings for supply chain, procurement, technical teams, suppliers and contract manufacturers. This is an outstanding tool which not only saves time, but helps you to meet the right people and discuss their projects, requirements and expertise over just 2 days.

Conferences & Workshops

AIMA Africa offers a high level conference and workshop program. The program presents an excellent opportunity for industry professionals to share their experiences and better comprehend scientific, industrial, and technical and sale's developments within the market.

Industrial Visits

BCI Aerospace offers its participants the unique opportunity to visit local industrial sights. A exclusive chance to gain insight into local companies working in the sector.
